# Muneeswaran K

## Web Developer

I am a self-taught JavaScript Developer with over 2 years of experience in creating web applications. And I am particularly proficient in HTML, CSS, React, and Node.js, which allow me to create dynamic and interactive websites.

## Employment History

### Web Developer, Multivariate AI PVT LTD, Remote

July 2021 - June 2023

- Responsible for building the user interface and ensuring the website is visually appealing, responsive, and user-friendly.
- I constantly learn and adapt to different technologies based on project requirements.
- I collaborate with backend and design teams to effectively communicate and understand project requirements, enabling me to create comprehensive front-end plans.
- Throughout the sprint, we prioritize tasks based on the priority of each feature.

## Education

### BCA, Kalasalingam University (Discontinued)

June 2015 - April 2018

## Projects

### Appvector.io

Appvector is an app store optimization platform that tracks competitor apps and boosts customer app scores on Play Store/App Store.

- Given the complexity of the web app's user interface, we have utilized React.js to effectively manage and develop the project.
- My responsibilities in this project include feature development, testing changes on staging, bug tracking, and deploying changes.

### WhatsApp Automation

Built on Node.js, this project facilitates clients to send bulk WhatsApp messages for users.

- Throughout this project, my responsibilities encompass implementing new features and ensuring the proper maintenance of our servers.
